

Vermilion won the district exhibit competition and the John Christie Challenge cup. Seems a good excuse for painting the old town vermilion.

A Frenchman has invented a bicycle that will fly. Recently seems necessary: leave an ordinary one at the edge of the sidewalk and it disappears.

Twenty Parisians were arrested for jostling at the Bulletin of Morocco. But probably they thought insubstantial behaviour the most appropriate to offer him.

"BRITAIN GETS FRANCES' 10 U. S. SAYS HEADLINE. THANKS GOODNESS THAT'S PAID!"

The weather man seems to have been doing his job. Exhibition by showing how many times the climate of Edmonton can provide.

It is to be hoped their successors in the Paganet won't move any of our old-timers to desert this city for Hollywood.

From an Eastern paper: Mrs. Marie Wilson did well at her wedding dress. I thought she didn't wear her frock on till cold weather came.

As another inducement to tourists, Italy might now advertise itself as the greatest one-man show on earth.

The telephone call in Monday's parade, which showed two young lady operators, was a telephone to contain ringing of a telephone bell, not intended to be symbolic.

THE GRAND JURY PROBE INTO THE MOPHERSON KIDNAPING AFFAIR SUGGESTS THAT SOMEONE WOULD LIKE TO CATCH THE KID NAPPING.

We read of a motorist whose pipe stem was forced into the roof of his mouth when he cartered a telephone pole. Lucky he didn't swallow the pipe!

The frame seems to be the ideal coin with which to start a sinking fund.

ONE OF THE MOST EMBARRASSING THINGS FOR THE MODERN GIRL IS TO FIND HERSELF RELYING ON HER MODERN PROCKS WITH HER POCKET WATCH FOR A HANDKERCHIEF.

Life in the U. S. A. seems to be largely a matter of either the population relieving the other half or vice versa.

A NEW ENCYCLOPEDIA 17. Hash. One needs no recipe for making hash. Just put a dash of something more any kind of spine.

With good cold, And anything you chance to have in store. Provided that the stuff's been cooked before.

A little fish. And any odds and ends of this and that. Mixed with a chunk or two of frying fat.

Are useful. Then all the kitchen drawers and cupboards out. Pick up whatever scraps may lie about.

VOL. XVII, No. 39.

—Jasper Ave. Shoe Shop, two store east of main store, H.B.C.

FEATURES WOMAN'S REALM CLUBS

PALE HANDS

By HAZEL DEVO BACHELOR

Lella March, who has always been accustomed to idleness, is left without money. The rich rich friends are of the fair-weather variety and because she has never been taught to do anything is forced to take a position as a lady's maid with Mona Kinsinger, a very rich woman. In the family are Richard, Mona's husband and Harry, the son, a spoiled weakling. Mona amuses herself by humiliating Lella before others, and because of her beauty Harry perceives her to another way. Richard discovers this and is sure for the girl. He knows that it is trying to get Lella to a better position and to help her. Later he pleases to his amusement that his feeling toward her is not disinterested. In the meantime Lella is interested with a young bachelor in which would have been a contribution between them to go away with him. Later that night Harry seeks Lella out and tries to prevail her with a handsome gift. She tells him to be respectful to her, and threatens to tell his father if he does not stop bothering her.

CHAPTER XXVII

A How to Mona

During the first few days after Lella had successfully refused to accept his gift, Harry plunged into dissipation. His father, who had never before, and another man took some girls for the night. Lella chafed out to supper after the theatre and Harry, who had been partner with the diamond pendant he had bought for Lella. She squaled with delight when he clasped it about her throat and would have thrown her arms around his neck if he hadn't laughingly drawn back. For some reason he didn't want that kind of thing, and in spite of the alcohol that he had taken and the fact that his hand was shaking, he kept thinking of Lella's scornful words and her manner of refusing his gift.

For all his dissipation he could not seem to get out of his thoughts. He was about any other girl that he had met. Perhaps it was because they were all ready and willing to accept his attention, and at any rate, one morning he woke up in the morning and found a note pinned to his pillow. It was from a girl who told him that she had never before experienced anything like his.

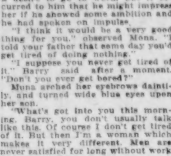

He took a cold shower and had breakfast. He was still in a daze when he went to his room and found a note pinned to his door. It was from a girl who told him that she had never before experienced anything like his.

"Harry, you've been disgusting to me," Lella said. "I don't look any worse than you."

"You'd better get out of town for a time and pull yourself together. Perhaps you ought to see a doctor," Harry shrugged impatiently.

GROUP of children on Anchor - Donaldson liner Letitia New immigrants to Canada

MRS. GRACE THOMPSON SEATON, wife of the Canadian naturalist, sailing for Brazil with the Marshall Field party

COUNT APPONYI, of Hungary, on his 80th birthday

THE EXTRAORDINARY THRONGS at the Eucharistic Congress at Chicago are indicated in these pictures of portions of the Soldiers' Field, as seen from one side of the field. The mass of humanity on the left is only a portion of the huge assembly estimated to number 250,000 people. Many thousands could not get near the place at all. On the right is seen the High Altar, specially erected for the occasion, connected by loud speakers with other parts of the field, so that the proceedings were audible throughout the vast assemblage. Cardinal Bonzano was the celebrant of the Pontifical High Mass

IS DOMINATING
POLICE DOCKET

Chief Shute's Report Shows
Tightening Up on
Enforcement

Summary cases at the city
police court during the month
of June totaled 112, according
to the statement for that period,
which is being forwarded by
Chief Constable A. G. Shute to
Mayor Hinfelaar, police commis-
sioner. This number is 37
in excess of that for May, largely
due to an increase in prosecutions
of city bylaw offenders.

Fifty-five persons were charged
with 112 offenses during the month
of June. The most common offense
was violation of the city bylaw
prohibiting the use of motor vehicles
on sidewalks. There were 37
cases of this kind, 11 of which were
for illegal and 26 for excessive
speed.

While no reports were received
from the constables during the
month of June, the number of
cases of this kind has been rising
steadily. The constables are being
told to be on the lookout for these
cases.

It will be probable that the city
will have to increase the number
of constables in the future. The
present force of 100 constables is
not sufficient to handle the work
of the city.

Arrests during June totaled 12.
There were 11 Canadians with other
charges and 1 Canadian with no
charges. The total number of
arrests during the month was 12.

There were 281 non-resident
arrests during the month. The
total number of arrests during the

AUSTRALIANS MUCH TOO GOOD FOR LANCASHIRE CRICKETERS

FIGHT CALLED OFF **Thursday**

NEW YORK, July 16—Rain late Thursday quenched for at least 34 hours the fires of enthusiasm.

Canadian Press Cable

LIVERPOOL, July 16—History gives every indication of repeating

light heavyweight championship contest scheduled for Thursday night.

A few hundred intrepid fans had moved into the arena before the downpour came, rushing for the few-priced seats. They were not sure that their presence would be honored tonight when the program will be staged with-

the centre which concludes today, for the sensational collapse of the Red Rose batsmen Thursday afternoon, following a magnificent first wicket partnership between the two players. It is a hole from which there is no exit. To the 468 runs for five wickets accumulated by the Australians, Lancashire's standard will be added 1000 runs and 10 wickets.

TORONTO TEAM BEATS REGINA

McCormick Juniors Win First Game by Score of 6-2

TORONTO, Ont., July 16—A seventh inning rally that routed the locals four runs sent the touring Regina All Stars baseball force to the showers.

The McCormick Juniors, who follow likely that when the seventh inning falls, Laurabath will have to follow on today.

DAVIS CUP TEAMS WILL MEET TODAY

Associated Press

VIENNA, July 16—Davis Cup tennis teams from Canada and Cuba will meet here today in the first two matches of the Davis Cup tennis series. The contest pit William K. Johnston of Canada against Hammy MacArthur and Jack Wright, Canada, against Cuba. In the doubles, the Canadian team of Ross and Crowder will be opposed by Chacon and Rangel.

KEEP THIS ANNOUNCEMENT FOR FUTURE REFERENCE

Share in Alberta's Immediate and Splendid Future!

"PEP" is the appropriate name given to the gasoline product of Alberta Refineries Limited, produced from the crude oil of the Wainwright field.

"PEP" has justified its name as a lively, volatile, anti-knock gasoline which motorists insist upon after once having used it. Today the present "PEP" plant is inadequate for the demand.

+Why a Cracking Plant Is Necessary

Prof. Gustav Egloff of the Universal Oil Products Company Research Laboratories, in a lecture before the American Institute of Mining and Metallurgical Engineers, spoke emphatically upon the wonderful economy and value of the "Cracking Plant" in the production of high grade anti-knock gasoline from crude oil.

He claimed, and showed by tests and actual production in many fields, that by the Dubbs process, from 50 to 70 per cent gasoline is extracted from the crude and showed that from the Kevin Sunburst alone this percentage is always obtainable. The heavier crude from the Smackover field is mentioned as showing "the wonderful potentialities of this process."

"One of the wonder oil fields of the United States is the Smackover Arkansas, which is still producing 160,000 barrels per day, of which 163,000 barrels (December 31, 1925), is heavy oil. This oil, of asphaltic character, is not very satisfactory as a fuel oil due to its emulsified water, high sulphur contents and other properties.

"The general inquiry when a new Smackover well was brought in 'What will they do with it after they get it?'

"One leading oil man stated that Smackover 'Heavy crude' had everything in it it should not have for a refinery. Yet, despite these pessimistic statements, Smackover heavy oil is being commercially cracked into over 50% gasoline. Smackover heavy crude oil production of 163,000 barrels daily can be converted into 81,500 barrels of gasoline per day by the cracking process."

The results achieved, from the Kevin Sunburst Fuel Oil, persuade those which will be accomplished by the Cracking Plant in treating the crude oil from the Wainwright field, as the chemical composition and gravity of the oil are almost identical.

"The Dubbs Process is so flexible that it converts any type of oil without change of principles or equipment into gasoline. Commercial plants are in operation or under course of construction in various parts of the world, such as Japan, Russia, Java, and Java West India, Australia, Romania, and many parts of the United States."

OIL IS KING! Oil is the gold of this age. But unlike that autocratic and aristocratic sovereign, Petroleum is democratic—a ruler who takes his pleasure in work; an ultra modern king who puts his shoulder to the wheel—who is the prime ally and most essential supporter of Industry!

THAT Alberta is on the eve of a tremendous future as a petroleum area there can be no doubt. Geologists declared it years ago, and now actual drilling is proving it. . . . Engineers overseeing the development work to date, with one voice proclaim this province to be, potentially, the greatest oil field in the world.

That there will be millionaires by the score made in the next few years through the development of this great natural resource is a foregone conclusion. That there will be rich men by the hundreds, and comfortably well-off men by the thousands is a fact which requires no great powers of prophesy to foresee.

These will be the men of vision, courage and enterprise who take an active part in the work of development.

ALBERTA, even now rich beyond our most extravagant wishes, as the result of Nature's lavishness, will be famous and her people prosperous.

But this wealth, like every other great prize, is for the active and courageous. . . . So that while many individuals will be rich, there will be others whose only

harvest of the golden crop will be regrets.

"Of all sad words of tongue and pen
The saddest are these: 'It might have been!'"
To which group will you belong?

RIGHT at your door is an opportunity to participate in this situation and its potentialities. Here are the facts:

Already there is a two-million-dollar-a-year oil well in Alberta. The Wainwright field, adjoining us here in Edmonton, is being rapidly developed.

Alberta alone pays millions a year for petroleum products to foreign countries, while in our yard there lies countless millions of dollars worth of oil.

The Alberta Refineries Limited, realizing the situation here, built a refining plant with a 1000-barrel-a-day plant and has produced a wonderful product, very properly called "PEP." The demand is insistent—already far exceeding the supply. Another 500-barrel plant is projected.

The Refineries Distributors Limited—a company organized to distribute the "PEP" petroleum products—will erect a "Cracking Plant" which will extract from 3 to 5 times more gasoline from the crude oil of the Wainwright field than can the refinery.

It is a case of demand exceeding supply—a unique situation!

Will you profit by it?

Early day gold seekers overlooked the rich sulphide areas which were almost pure gold, but which did not glitter.

. . . . Modern Science touched them with her magic hand. Millions of dollars were taken from the racks of goldfield, thrown aside by the placer miners looking for seeds of yellow gold. . . Think this over!

"Petroleum is one of our most valuable natural resources. . . The refining of petroleum must become our foremost industry."

"When the Standard Oil Trust was dissolved, it developed that 80% of the profit in petroleum was made by the refining end."

Refineries Distributors Limited

208 McLEOD BUILDING, EDMONTON, ALBERTA

Capitalization ~ \$1,000,000

90,000 Shares, Preferred, \$10 Par

100,000 " Common, \$1 "

Present Offering: The balance of a Block of 30,000 Preferred Shares at Par each Preferred Share carrying a Bonus of One Common Share.

DIRECTORS:

JOHN L. MERCER, Edmonton, Alberta, President.

H. A. STEWART, Vancouver B.C.,
Vice-President and Managing Director.

M. C. HAMMOND, Edmonton, Alberta.

J. C. C. BREMNER, Clover Bar, Alberta.

ROBERT McDONALD, Edmonton, Alberta.

W. A. TRIMBLE, Edmonton, Alberta, Secretary-Treasurer.

REFINERIES Distributors Ltd. was organized with a Dominion Charter, capitalized at \$1,000,000, divided into 90,000 8% Preference Shares with a par value of \$10.00 each; and 100,000 Common Shares with a par value of \$1.00 each. Paid up capital is \$200,000.

The company was organized to market the "PEP" products of the Albert Refineries Ltd., and also to produce gasoline and other products from crude petroleum by means of a cracking plant, this plant employing the Dubbs process, a great scientific and economic advance over the ordinary refining plant, extracting from 3 to 5 times as much gasoline from the crude oil.

The present issue, for the purpose of carrying on the immediate program of the company, is 30,000 Preference Shares, of which 10,000 shares have already been sold. The Preference Shares are offered in units of 1 at par \$10.00, and each of these Preference shares carries a bonus of 1 Common Share.

The initial program of the company is to erect and maintain a number of Service Stations throughout the Province for the marketing of "PEP" gasoline and petroleum products, a profit of 3c per gallon clear of freight being available from this source alone at the present market prices.

Also to erect a "Cracking Plant" at a cost of \$150,000. This will have a capacity of 1,000 barrels of crude oil and will produce from this a minimum of 500 bbls. of anti-

knock gasoline every twenty-four hours. At 35 gallons to the barrel, this shows a total output of 17,500 gallons a day.

Apart from the individual profit of the cracking plant unit working at capacity, the output marketed through the service stations shows a distributing profit of \$525.00 per day net. This alone will show a handsome dividend on a \$1,000,000.00 capitalization in addition to the 8% per annum on the preferred shares.

Detailed figures will show this enterprise to be one of the very highest potentialities for profit. We shall be pleased to send a digest of the situation, based upon actual conditions, to the earnest investor or.

In the meantime, the acquisition of the partnership will be limited to the 30,000 shares of the company which are being offered for sale.
